

DOLORES PENDANT

anthracite

255 Kansas Street, Suite 302 San Francisco California 94103 www.shinelabs.com sales@shinelabs.com t. 415 626-5262 f. 415 626-5259

Sometimes, material itself inspires. Understood as a renewable, eco-friendly “green” material, wool felt is a highly versatile material with a rich history and tradition that can inform our ongoing efforts of sustainability.

The **Dolores Pendant** is made using high-quality 100% wool felt. Die cut wool panels are sewn together with externally stitched seams to form a shade that is then supported by a nickel plated wire frame.

The Dolores Pendant shade is currently available in either orange or anthracite felt. Fixture is also provided with six feet of field-cuttable cord to a round ceiling canopy. Includes 120 volt, 75 watt A19 medium base lamp.

Item No. **100DOL-**

- ORG** (Orange)
- ANTH** (Anthracite)
