Bon Jour - Specification Sheet by Philippe Starck, 2015

Mounting	Table Top
Lamp (Bulb) Description	EDGE LIGHTING 2700K 250lm CRI90 6W
Environment	Indoor - Dry Location
Finish	White
Technical and Product Description	The smaller table version of the Bon Jour table lamp, the Bon Jour Unplugged truly moves with the user and can be used in any environment. The base features a micro-USB connector which recharges the battery thirty minutes and then the light lasts for six hours. Like the other members of the Bon Jour family, this model combines maximum performance and efficiency with visual comfort. Users are able to effortlessly control the intensity of the direct light with just one click.

This sleek and pure light can be customized according to personal tastes and styles by "dressing" it with a chrome, copper or matte white metallic plastic hat that incorporates the LED light source, and a shade available in multiple finishes and materials: amber colored injection molded plastic, which simulates the spirit of the ground glass of times past, or transparent yellow, in a more contemporary high tech style, or classic pleated fabric, or natural raffia.

Inspiration behind the design:

"Bon Jour is a consistent collection of light, exploring the timeless elegance of high-technology dematerialization combined with the freedom of expressing your own creativity." Philippe Starck
