SPINNING PENDANT BH1

BY BENJAMIN HUBERT
2010

The spinning-top toy, a childhood favourite, inspires to the joyful form of the Spinning pendant along with the process of metal spinning. Here, form truly meets function in an innovative way. It's sleek, it's sexy and it's sure to become a new classic.

& Benjamin Hubert is always curious to find new solutions and materials, often stopping to feel the texture on a piece of furniture or feeling the weight an old glass vase.

Photometric data file (LDT or IES) available upon request.
